vivere a colori
living with colours

La ricerca sul colore, portata avanti con coerenza e professionalità, da oltre 40 anni, si concretizza in una nuova gamma di prodotti da pavimento e rivestimento che costituiscono un progetto organico fatto di nuovi colori, superfici e formati tra loro compatibili. I nostri prodotti offrono una superficie compatta e resistente, dai colori più brillanti e saturi: le materie prime selezionate che formano il supporto, garantiscono la totale assenza di impurità e una migliore distribuzione del colore.

Il colore è per eccellenza la parte dell'arte che possiede un dono magico. Mentre il soggetto, la forma, la linea si rivolgono prima di tutto al pensiero, il colore non ha nessun significato per l'intelligenza, ma ha tutti i poteri sulla sensibilità, provoca delle sensazioni. Il mondo è disegnato dalla luce e plasmato dal colore. Il colore muove, esprime, sussurra, diverte. Il colore si intreccia con fantasia generando trame di materia e di racconti.

Research into colour, carried forth consistently and professionally for more than 40 years, takes shape in a new range of wall and floor products that form a systematic project made of new colours, surfaces and sizes all modular with each other. Our products offers a compact, hardwearing surface with the brightest and fullest colours. The selected raw materials ensure a total absence of impurities and a better distribution of colour.

The colour is part of the excellence that has a magical gift. While the subject, form, line turn first of all in thought, the color has no meaning for the intelligence but all powers on sensitivity, causing sensations. The world is drawn by the light and defined by colour. Colour moves, expresses, whispers, amuses. Colour confuses with fantasy, creating new material and tales.

Un disegno, una scritta, un logo, un simbolo... qualsiasi progetto viene scomposto e frammentato per ritrovare nuova vita nelle tessere colorate e diventare un prezioso mosaico. Non ci sono limiti alla realizzazione: grandi reti di 1mx1m con le tessere premontate possono essere assemblate per creare grandi pareti a mosaico; tutta la gamma dei 48 colori matt nei formati 2,5x2,5 e 1x1 cm è disponibile per creare sfumature e volumi: l'unico limite è la propria fantasia.
